About Me

Hi, I'm Pham Dang Quang, a passionate IT and Japanese language learner. I love diving into technology, coding, and exploring the beauty of different cultures. My goal is to merge my skills in tech with a global perspective. I want to learn more about Japanese Language and Website Development include Front-end and Back-end in order to become a IT communicator or Bridge Software Engineering in a Japan Company. The IT comtor and BrSE is a kind of job that mixed between IT developer and translator that has the mission to deliver all requirements of the Company A to Company B, explain briefly for developer and then they will build system, website, application based on that explanation.
